

# Labour's Game Changer, Climate Change and Students Impact on Election

Centre for Brexit Studies Senior Fellow Dr Steven McCabe has shared his views, thoughts and expertise around the Labour Party's NHS 'Game Changer' morning, where Jeremy Corbyn discussed uncensored documents showing that the US is demanding the NHS on the table in a possible trade deal.

In a video shared today, the expert also discussed the importance of Climate Change in the General Election campaign and if this could impact the Conservative Party, how likely another Coalition Government could be after the Election and what impact young voters could have on the result.

Dr McCabe also discusses if the real 'deciders' of the result could be students and young people rather than the older generations, and if this is the most important General Election in decades.
